Our core services can be divided into four categories:

- **Inspection:** our comprehensive range of world-leading inspection and verification services, such as checking the condition and weight of traded goods at transshipment, help you to control quantity and quality, and meet all relevant regulatory requirements across different regions and markets
- **Testing:** our global network of testing facilities, staffed by knowledgeable and experienced personnel, enable you to reduce risks, shorten time to market and test the quality, safety and performance of your products against relevant health, safety and regulatory standards
- **consulting:** we enable you to demonstrate that your products, processes, systems or services are compliant with either national or international standards and regulations or customer defined standards, through consulting
- **Verification:** we ensure that products and services comply with global standards and local regulations. Combining global coverage with local knowledge, unrivalled experience and expertise in virtually every industry, FKS covers the entire supply chain from raw materials to final consumption

Committed and By Your Side

We will work side-by-side with you as often as necessary to establish the approach needed to respond to your needs. A specially selected team member will be available to listen and respond to your needs throughout the project.
